IWEA Membership

The Irish Wind Energy Association is Ireland's leading renewable energy body with over 150 members. Our primary purpose is to promote the use of wind power in Ireland both onshore and offshore. Leading key stakeholder engagement IWEA works closely with DCCAE, DHPCLG, CRU, ESB Networks, EirGrid, SEAI, and more to lobby on behalf of members and the industry.

What it means for you

At IWEA we understand members needs, having over 25 years experience in the industry we strive to reach out to members through committees, working groups, conferences, training and networking events to understand individual positions in relevant and topical industry challenges. We offer members a unique voice in wind. Membership of IWEA means being part of the forum for companies active in the industry working together to research and find solutions to current and potential issues.

Why membership of IWEA is a good idea!

Influence

One voice for the Irish Wind Industry

Direct access to IWEA committees and working groups

Knowledge sharing via regular meetings with other companies in the industry

Influence decisions via IWEA's regular meetings with key stakeholders

Opportunities to influence IWEA responses to public consultations

Represented in key forums via IWEA's members such as the DS3 Advisory Council and Grid Code Review Panels

Inform
